

## PHARMACY PROGRAM

### WHAT IS IT?

ABC MedCare Pharmacy provides prescription and over-the-counter drugs for employees and their legal dependents.

### WHERE IS IT LOCATED?

The ABC MedCare Pharmacy is located at the Admiral Beverage Employee Medical Center, 709 Robertson Avenue, Worland, Wyoming 82401. Nurse and Technician on duty Monday through Friday from 7:30 am to 4:30 pm.

### HOW DOES IT WORK?

NOTE: The best price discounts are available on generic substitutes for brand name products.

For Urgent-Care Prescription Drugs...

- Employees participating in the company medical insurance plan may purchase urgent-care prescription drugs (i.e., those needed immediately) under the Admiral Urgent Care program. The complete list of what is covered immediately is included in this mailing for your reference. The local retail pharmacy of your choice needs your insurance card to bill these medications, which is only up to 14 day supply. Only meds on this list are covered locally. All other meds are considered non urgent and are covered only at ABC MedCare. Any meds purchased at a cash price at a local retail pharmacy may be submitted by paper claim to the insurance and reimbursed at 50% after deductible is met.

For Non-Urgent Care Prescription Drugs...

- Present prescriptions to ABC MedCare. Non-control prescriptions can be filled from a fax. However, ABC MedCare must receive the original prescription for pharmacy files or doctor can e-scribe. All prescriptions for controlled substances require us to have the written copy before it can be filled, unless e-scribed or called in direct for your doctor. If you absolutely need to get your prescription as soon as possible, have your doctor's office call ABC MedCare.
- Worland employee orders may be picked up at the ABC MedCare Pharmacy in Worland. All other orders will be sent to the employee's Office Manager for pickup by the employee. Orders may be mailed to the employee's home address, if so directed on the prescription, at the employee's expense for mail. Employees unable to pickup their prescriptions directly from ABC MedCare Pharmacy in Worland should plan on 3 to 5 days for delivery.

For Prescriptions that are currently being filled at your retail pharmacy that you want filled at ABC Medcare

- ABC Medicare can perform a prescription transfer for you. The information required to transfer medications from a retail pharmacy to ABC Medicare is employee name, patient name, pharmacy name, pharmacy phone number, drug name and prescription number. Be aware that these transfers take 7-10 days to be filled. Call 307-278-2720 to initiate.

## WHAT WILL MY PRESCRIPTION COST?

For Urgent-Care Prescription Drugs you will pay \$10.00 for a generic drug and \$25.00 for a brand name, both up to 14 day supply.

For Non-Urgent Care Prescription Drugs...

	Employees on ABC Medical Insurance	Employees <u>NOT</u> on ABC Medical Insurance
Generic Drugs	\$7.50 for a one-month supply \$15.00 for 3 month supply	Acquisition cost plus a \$4 dispensing fee
Preferred Brand Name Drugs	\$20 or 20%, whichever is greater, for a one-month supply.	Acquisition cost plus a \$4 dispensing fee
Non-Preferred Brand Name Drugs	40%, whichever is greater, for a one-month supply	Acquisition cost plus a \$4 dispensing fee

For Option 2, High Deductible Health Plan (HDHP), prescriptions will be filled at cost to the patient until their deductible has been met. After the deductible has been met, prescriptions will be at 20% of cost until out of pocket is met. Medications on the preventative formulary are 20% of cost regardless of deductible.

The cost of the prescription plus applicable postage, if requested to be mailed to employee, will be withheld from the employee's paycheck, or call and we can process your debit/credit card over the phone.

NOTE: Benefits can be coordinated for an employee whose spouse is also covered by a medical insurance plan other than the Admiral Beverage Employee Benefit Plan.

## HOW CAN I SAVE ON MY PRESCRIPTION COST?

Generic medications are a great way to reduce your prescription costs. If your doctor is willing to change to one of these products your co-pay will normally be significantly less than the co-pay for the more expensive brand name drug. Your doctor **MUST** okay this change.

Call the ABC MedCare Pharmacist to inquire about the most economical way to help your doctor order your medication. Most physicians are willing to prescribe with your insurance benefit in mind.

## WHAT IF I HAVE QUESTIONS?

Employees and their doctors are encouraged to call ABC MedCare during business hours for information on available drugs, services or prices. The pharmacist is available Monday through Friday, from 10:30 am to 4:30 pm.
